GEOLOGISKA FÖRENINGENS I STOCKHOLM FÖRHANDLINGAR

EDITOR: BJÖRN SUNDQUIST

VOLUME 112 · 1990

PUBLISHED QUARTERLY BY THE GEOLOGICAL SOCIETY OF SWEDEN

CONTENTS

1 Eronen, M., Ristaniemi, O. & Lange, D.: Analysis of a sediment core from the Mecklenburg Bay, with a discussion on the early Holocene history of the southern Baltic Sea

9 Ek, R. & Nysten, P.: Phosphate mineralogy of the Hålsjöberg and Hökensås kyanite deposits

19 Eklund, C.: Lower Cambrian acritarch stratigraphy of the Bårstad 2 core, Östergötland, Sweden

45 Amcoff, Ö. & Nysten, P.: Mechanism of formation of wittichenite rims around native bismuth in chalcocite and bornite from Långban, Sweden

51 Lindroos, A., Ehlers, C. & Åberg, G.: A Rb–Sr whole-rock isochron of 1.5 Ga in early Proterozoic pillow lavas in SW Finland

59 Nysten, P.: Tsumoite from the Björkdal gold deposit, Västerbotten County, northern Sweden

61 Fredholm, D.: Agnathan vertebrates in the Lower Silurian of Gotland, Sweden

85 Burke, E. A. J. & Zakrzewski, M. A.: Herzenbergite and associated antimony minerals from Björkskogsnäs, Hällefors, Sweden

89 Stevens, R. L. & Hellgren, L.-G.: A generalized lithofacies model for glaciomarine and marine sequences in the Göteborg area, Sweden

107 Andréasson, P. G. & Rodhe, A.: Geology of the Protogine Zone south of Lake Vättern, southern Sweden: a reinterpretation

127 Gower, C. F.: Mid-Proterozoic evolution of the eastern Grenville Province, Canada

140 Hansen, S.: Harmotome from Odarslöv, Skåne, Sweden

141 Persson, O.: A plesiosaurian bone from a Cretaceous fissure-filling in NE Scania, Sweden

143 Eriksson, L. & Wickman, F. E.: The Föllinge meteorite – find or fall?

145 Ahlberg, P.: Agnostid trilobites from the Ordovician of the Siljan district, Sweden

157 Vernon, R. H.: K-feldspar augen in felsic gneisses and mylonites – deformed phenocrysts or porphyroblasts?

168 Liljedahl, L.: *Evyana*, new name for the Silurian bivalve *Fylgia* Liljedahl, 1989, *non* Kirby, 1889

209 Pusch, R., Börgesson, L. & Knutsson, S.: Origin of silty fracture fillings in crystalline bedrock

215 Wahlström, R.: A catalogue of earthquakes in Sweden in 1375–1890

227 Smeds, S.-A.: Regional trends in mineral assemblages of Swedish Proterozoic granitic pegmatites and their geological significance

243 Ronnert, L., Svedhage, K., Wedel, P. O. & Berglund, J.: Pre-Late Weichselian glaciotectonized sediments in the Sjötorp area, Västergötland, Sweden

249 Holmer, L. E. & Popov, L. E.: The acrotretacean brachiopod *Ceratreta tanneri* (Metzger) from the Upper Cambrian of Baltoscandia

264 Wickman, F. E.: The supposed meteorite fall in 1912 at Tingsås, Sweden

265 Björck, S., Dennegård, B. & Sandgren, P.: The marine stratigraphy of the Hanö Bay, SE Sweden, based on different sediment stratigraphic methods

281 Ising, J.: Late Weichselian pollen stratigraphy, palaeomagnetic secular variations and radiocarbon chronology at the Torreberga ancient lake, Skåne, Sweden

305 Gee, D. G.: Radioactive waste disposal – the geologists' responsibility; Introduction and summary

307 Bäckblom, G. & Karlsson, F.: Swedish programme for disposal of radioactive waste – geological aspects

317 Milnes, A. G.: Radwaste disposal – An introductory review and some comments on the Swiss programme

321 Fyfe, W. S.: Reflections on our energy future

325 Knill, J. L.: U. K. radioactive waste policy and research (abstract)

326 Slunga, R.: Swedish earthquakes and fault movements (abstract)

327 Stephansson, O.: Modelling of bedrock stability (abstract)

328 Björck, S.: Pleistocene climatic changes and consequences for radwaste disposal (abstract)

329 Björklund, A.: Methane venting as a possible mechanism for glacial plucking and fragmentation of Precambrian crystalline bedrock

333 Lagerbäck, R.: Late Quaternary faulting and paleoseismicity in northern Fennoscandia, with particular reference to the Lansjärv area, northern Sweden

355 Talbot, C. J.: Problems posed to a bedrock radwaste repository by gently dipping fracture zones

361 Tirén, S. A. & Beckholmen, M.: Rock block configuration in southern Sweden and crustal deformation
365 Smellie, J. A.: Swedish natural analogue studies and their applications
369 Blomqvist, R. G.: Deep groundwaters in the crystalline basement of Finland, with implications for nuclear waste disposal
375 Mörner, N.-A.: The Swedish failure in defining an acceptable bedrock repository for nuclear waste deposition

Announcements

44 GFF gets two new subject editors
58 Correction
88 Books and journals
207 International Conference on Environmental Pollution
208 Books and journals
226 Books and journals
360 Books and journals

Literature reviews

242 Boulter, C. A., 1989: *Four dimensional analysis of geological maps. Techniques of interpretation* (K. Lidmar-Bergström)
214 Peel, J. S. (ed.), 1988: *Stratigraphy and palaeontology of the Holm Dal Formation (late Middle Cambrian), central North Greenland* (P. Ahlberg)
106 Pichler, H., 1989: *Italienische Vulkan-Gebiete V. Mte. Vúlture, Äolische Inseln II (Salina, Filicudi, Alicudi, Panarea), Mti. Ibley, Capo Pássero, Ustica, Pantelleria und Linosa* (T. Lundqvist)
332 Takemoto, S. (ed.), 1989: *Laser holography in geophysics* (D. S. Parasnis)
126 Zachrisson, E., (ed.), 1988: *Proceedings of the Seventh Quadrennial IAGOD Symposium, held in Luleå, Sweden, August 18–22, 1986* (P. Kresten)
316 Zimmermann, H. D., 1989: *Polarisationsmikroskopi, en introduktion för geologer* (S. V. Sölver)

Meeting proceedings

The Proterozoic crustal evolution of Bergslagen, south-central Sweden (introduction and summary by I. Lundström, M. B. Stephens & C.-H. Wahlgren) p. 169
170 Åberg, A.: Textures and fluid inclusions in gold-bearing quartz veins, Falun, central Sweden; preliminary results
171 Baker, J. H.: The two-stage crustal development of Bergslagen and the Svecofennian of the Baltic Shield
173 Bergman, T.: A preliminary overview of gold-bearing skarn mineralizations in Bergslagen, south-central Sweden
175 Billström, K.: Origin of the Yxsjöberg W-Cu skarn deposit, Bergslagen, south-central Sweden: oxygen isotope evidence
176 Carlon, C. J. & Bjurstedt, S.: Stratabound and stratiform sulphide mineralisation in the evolution of the Guldsmedshyttan Syncline, Bergslagen, south-central Sweden
177 Ehlers, C. & Lindroos, A.: Low-angle ductile shears in the early Proterozoic rocks of SW Finland
178 Eriksson, L.: Magnetotectonics in Bergslagen, south-central Sweden
179 Gebeyehu, M. & Vivallo, W.: Ore-lead isotopic composition of early Proterozoic volcanogenic sulfide ores at Garpenberg, Bergslagen, south-central Sweden
180 De Groot, P. A.: A model for the formation of potassic and sodic alteration phases during hydrothermal processes: application of thermodynamic models to natural systems
183 Hellingwerf, R. H.: Tourmalinization and garnet compositions at Nora–Viker, Bergslagen, south-central Sweden: prospecting tools for stratiform Zn-Pb sulphide deposits
185 Helmers, H. & Linthout, K.: Vertical structures in western Bergslagen caused by an interplay between detached normal faulting and sub-seafloor hydrothermal activity
186 Lagerblad, B.: Geochemical characteristics and magmatic evolution of the early Svecofennian rocks in Bergslagen, south-central Sweden
186 Lundström, I.: Proterozoic crustal evolution in Bergslagen, south-central Sweden – a brief review
188 Lundström, I.: Structural and alteration features in the Nora–Hällefors area, Bergslagen, south-central Sweden
189 Öhlander, B. & Zuber, J.: Aspects of the formation of the 1.80–1.77 Ga old granitoids in south-central Sweden
190 Pesonen, L. J.: The drift of Fennoscandia during the Proterozoic with special reference to the Bergslagen province south-central Sweden
196 Ripa, M. & Ferrow, E.: Chloritization of gedrite, albite, and biotite at Stollberg, Bergslagen south-central Sweden – results from a microprobe and TEM study
197 Tirén, S. A. & Beckholmen, M: Influence of regional shear zones on the lithological pattern in central Sweden
199 Trägårdh, J.: Tourmaline-bearing chlorite- and cordierite-rich mica shists in the Bergslagen region, south-central Sweden – an example of progressive metamorphism of magnesium-enriched felsic volcanic rocks
202 Valbracht, P. J.: Felsic metavolcanics in a sea-floor environment from western Bergslagen, south-central Sweden: indirect evidence for the presence of remote Archaean crust from Sm–Nd isotope systematics

204 Wahlgren, C.-H. & Stephens, M. B.: Post-Sveocfennian plastic and brittle-plastic shear zones in westernmost Bergslagen, Sweden
206 Welin, E.: Geochronological overview of Bergslagen and adjacent area, central Sweden

Nordic meeting on metamorphism, geodynamics and related geology (introduction and summary by A. Lindh) p. 293
294 Baginsky, B.: A check of the plagioclase-amphibole geothermometer applicability to the contact metamorphic rocks in SW Poland
295 Belyaev, O. A., Mitrofanov, F. P. & Petrov, V. P.: Metamorphic evolution of the Early Precambrian crust of the northeastern Baltic Shield
296 Hölttä, P. & Paavola, J.: The block structure and metamorphic evolution of the Archaean craton border zone in central Finland
297 Lindh, A., Johansson, L. & Möller, C.: A late Sveconorwegian granulite-facies metamorphic event in SW Scandinavia
298 Mengel, F. C., Bridgwater, D., Austrheim, H., Hansen, B. T., Winter, J. & Pedersen, S.: The metamorphic history of the Nagssugtoqidian mobile belt, southern East Greenland
300 Mints, M., Shenkman, E. & Kolpakov, N.: Palaeogeodynamic reconstructions of Early Precambrian and metamorphic zonation of the northeastern Baltic Shield
301 Romer, R. L.: Lead mobilization during foreland metamorphism in orogenic belts: examples from northern Sweden
302 Sigurdsson, O. B.: The Stora Le–Marstrand formation, SW Sweden; metamorphic and petrographic relationships
303 Tchudinova, V., Shenkman, E. & Mints, M.: Metamorphic zoning in granulites in Soviet Lapland
